

A rare split-color lobster was found off Cape Cod

Wellfleet Shellfish Company

1 / 5

Fishing vessels hauls in rare split-color lobster.

A fishing vessel hauled in a rare split-color lobster on April 16. The crustacean was brought to Wellfleet Shellfish Company who is donating the animal to Woods Hole Science Aquarium once they reopen. For now, the lobster is being cared for by the National Oceanic and Atmospheric Administration. (Photo courtesy of Wellfleet Shellfish Company)
